

Flu Vaccination Information for patients

Please note that, if you are aged between **50 and 64** and **not in a clinical at risk group**, the earliest you will be offered a flu vaccination is **November**, providing there is sufficient vaccine. No appointments will be offered for people in this age group until then. This is to ensure that those who are most at risk are vaccinated first. If you are aged **50 to 64 and are in a clinical 'at risk' group** which is eligible for the flu vaccination, for example you have a health condition which puts you at risk from the flu then you then will be invited earlier.
