HOW TO SEE YOUR DOCTOR

We use an appointment system during the week for morning and evening surgeries. These can be arranged personally or by telephoning the surgery

Monday appointments are booked on the day. Urgent same day appointments are available. Please help us by only asking for urgent appointments when it is really necessary and telephone as early as possible in the morning.

TELEPHONING YOUR DOCTOR

If you would prefer to speak to your doctor on the telephone rather than making an appointment please mention this to the receptionist.

OUT OF HOURS

The doctors will always see urgent cases the same day, as we endeavour to alleviate the demand on the Out of Hours services.

However should you need a doctor when the surgery is closed, you will be advised to contact 111 Out of Hours service.

REPEAT PRESCRIPTIONS

PLEASE NOTE that 48 hours notice is required. Requests for repeat prescriptions are **not accepted over the telephone** (other than in emergencies) as our aim is to keep the telephone lines free for urgent incoming calls. Requests for prescriptions can be made at Reception, by fax or via the internet. Prescriptions may be collected from the surgery, or posted to you. Please enclose an s.a.e. with the request. Local pharmacies will collect your prescription from the surgery but please note that they do require **5 working days** to process them.

Please enquire at reception for details of other options which may be available to you.

HOME VISITS

These are for patients too ill to attend the surgery. We hope that patients will come to the surgery if at all possible. This means that the patient is usually seen more quickly and makes best use of the doctor's time. Please request visits before 10am.
