

Early Help Service

We help children, young people and families who need extra support.

We work with families, in their own homes and in the community, helping tackle problems before they become more difficult to reverse.

We provide 12 Family Hubs across West Sussex offering:

- » Drop-in services for information, advice and guidance
- » Crisis support – such as emergency access to food and utilities
- » Support and information for young people aged 11-25 on a range of subjects through our 'Find it Out' offer
- » Access to services provided by our partners such as health clinics and support groups
- » Social spaces to meet other parents
- » Help to access the free entitlement to childcare places

For further information please contact 01403 229900.
