COVID-19 Spring Booster and New Eligibility for Respiratory Syncytial Virus (RSV) Vaccination from 1 April 2026

We are pleased to inform patients that appointments are now available for the COVID-19 Spring Booster vaccination and the Respiratory Syncytial Virus

Clinic Dates:

- **Saturday 18 October – COVID-19 vaccinations only**

In addition, mid-week clinics will commence from 13 April onwards – Covid only and Covid and RSV vaccinations given together

Eligible patients will receive a text message invitation containing a booking link. Patients we are unable to contact by text will be contacted by telephone or letter.

If you are eligible for both the COVID-19 Spring Booster and the RSV vaccination, you will be given the option to receive both vaccinations at the same weekday appointment, should you wish to do so.

To help minimise telephone waiting times, we kindly ask that you wait to be contacted if you are eligible, rather than calling the practice directly.

Eligibility for the Spring COVID-19 Booster

The following groups are eligible:

- Residents in care homes for older adults
- Adults aged 75 years and over (including those who will turn 75 on or before 31 January 2026)
- Individuals aged 18 years and over who have a weakened immune system

Eligibility is based on evidence that the risk of severe COVID-19 remains strongly associated with increasing age and certain underlying health conditions.

New Eligibility for RSV Vaccination from 1 April 2026

From 1 April 2026, the following groups are eligible for the Respiratory Syncytial Virus (RSV) vaccination:

- Residents in care homes for older adults
- Adults aged 75 years and over (no upper age limit)

If you are eligible, please wait for your invitation to book.
